

Carriers are Requiring HIPAA Compliance – Are You Ready?

July 19, 2018

TIMED OUTLINE

This course was developed to meet the education training requirements and provide students with 1 hour of continuing education.

Course Overview: Security is one of the biggest concerns for all businesses regardless of size or industry. Carriers are now getting into the act or requiring agents and brokers to prove they are protecting all the Information they hold. This webinar will cover HIPAA Compliance, Gramm-Leach-Bliley Act, and new state initiatives like Massachusetts's Written Information Security Program (WISP), California, Texas, Rhode Island and Oregon's Identity Theft Protection Act. We will be looking at common themes in the security protocols and easy ways your agency can become compliant.

Learning Objectives: Upon completion of the course, the participant will know:

- What is HIPAA and GLBA
- How an agency complies with HIPAA and GLBA
- Why carriers pushing compliance
- How to use HIPAA to protect your business
- HIPAA and GLBA fines and penalties
- Recent HIPAA and GLBA breaches

PRESENTER:**Jason Karn**

Chief Compliance Officer at Total HIPAA Compliance (jason@TotalHIPAA.com)

Jason is a co-author of Total HIPAA's Training and Compliance Solutions, and a frequent national speaker on HIPAA as well as a regular HIPAA social media contributor.

As Chief Compliance Officer for Total HIPAA, Jason takes a hands-on approach to assisting clients with the details of developing a well-documented HIPAA compliance plan. He has been a featured speaker for the Georgia Association of Healthcare Underwriters (GAHU), National Broker's Association (NBA) at their annual conference, the Columbus Association of Health Underwriters (CAHU), and is the content creator and co-presenter of NueMD's 10-part webinar series on HIPAA Compliance.
